Agility Growth/Decline Over Time

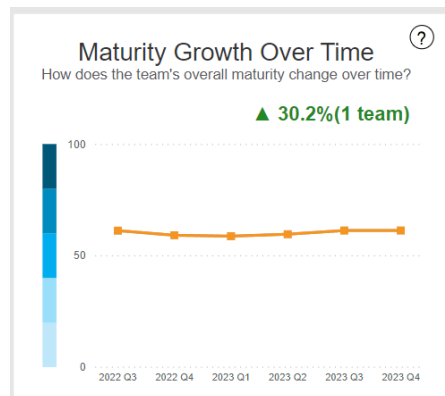

Agility Growth/Decline Over Time contains the following metrics:

1. Assessment Score: For each quarter, the average competency score (across all questions) of each assessment rolled up for the selected Enterprise/Multi-Team/Team
2. Growth%: The Team Growth% is calculated as the difference between the first and last assessment score in the selected time period. The Multi-team/Enterprise Growth% is calculated as the average of team growth% (that have noticed a positive growth)
3. Teams Grown: The count of teams that have seen a positive growth
4. Decline%: The Team Decline% is calculated as the difference between the first and last assessment score in the selected time period. The Multi-team/Enterprise Decline% is calculated as the average of team decline% (that have noticed a negative growth)
5. Teams Declined: The count of teams that have seen a negative growth

**Note:**

If a team has not taken an assessment in the selected Quarter From period, the previous assessment score is rolled over and the growth% is calculated for the same rolled over assessment score

Maturity Growth/Decline Over Time

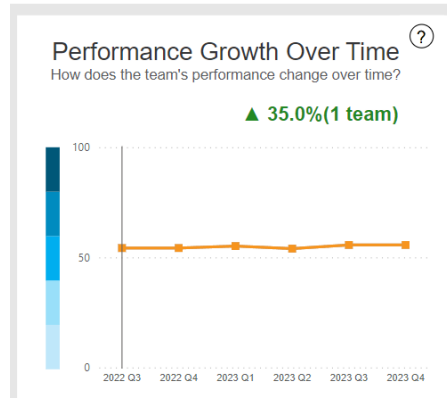

Maturity Growth/Decline Over Time contains the following metrics:

1. Assessment Score: For each quarter, the average competency score (across all qualitative questions) of each assessment rolled up for the selected Enterprise/Multi-Team/Team
2. Growth%: The Team Growth% is calculated as the difference between the first and last assessment score in the selected time period. The Multi-team/Enterprise Growth% is calculated as the average of team growth% (that have noticed a positive growth)
3. Teams Grown: The count of teams that have seen a positive growth
4. Decline%: The Team Decline% is calculated as the difference between the first and last assessment score in the selected time period. The Multi-team/Enterprise Decline% is calculated as the average of team decline% (that have noticed a negative growth)
5. Teams Declined: The count of teams that have seen a negative growth

**Note:**

If a team has not taken an assessment in the selected Quarter From period, the previous assessment score is rolled over and the growth% is calculated for the same rolled over assessment score

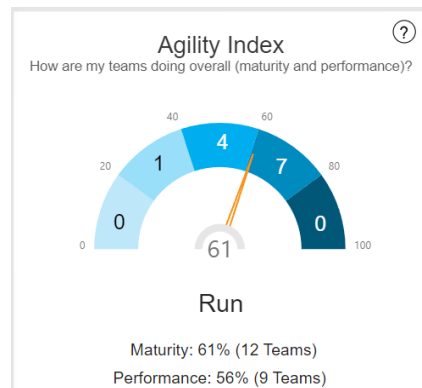

Performance Growth/Decline Over Time

- Performance Growth/Decline Over Time contains the following metrics:
1. **Assessment Score:** For each quarter, the average competency score (across all quantitative questions) of each assessment rolled up for the selected Enterprise/Multi-Team/Team
  2. **Growth%:** The Team Growth% is calculated as the difference between the first and last assessment score in the selected time period. The Multi-team/Enterprise Growth% is calculated as the average of team growth% (that have noticed a positive growth)
  3. **Teams Grown:** The count of teams that have seen a positive growth
  4. **Decline%:** The Team Decline% is calculated as the difference between the first and last assessment score in the selected time period. The Multi-team/Enterprise Decline% is calculated as the average of team decline% (that have noticed a negative growth)
  5. **Teams Declined:** The count of teams that have seen a negative growth

**Note:**  
If a team has not taken an assessment in the selected Quarter From period, the previous assessment score is rolled over and the growth% is calculated for the same rolled over assessment score

Agility Index

Agility Index is the Latest Assessment Score (for all questions) for the selected time period and is categorized into different states as follows:

- PreCrawl: Assessment Score < 20  
Crawl: Assessment Score >= 20 & Assessment Score < 40  
Walk: Assessment Score >= 40 & Assessment Score < 60  
Run: Assessment Score >= 60 & Assessment Score < 80  
Fly: Assessment Score >= 80

Maturity is the Latest Assessment Score (for only qualitative questions) for the selected time period, while Performance is the Latest Assessment Score (for only quantitative questions) for the selected time period

- Note:**
1. If a team has not answered any quantitative questions in the latest assessment (of the selected time period), then the Performance score will be rolled over from previous assessments (ie., the Maturity Score and Performance Score can be calculated from different assessments, given the above circumstances)
  2. Only Performance Scores are calibrated on a scale having Pre-Crawl, Crawl, Walk, Run and Fly, while Maturity and Agility Index are calibrated on a scale having Crawl, Walk, Fly and Run
