

# AgilityHealth® Measurement and Continuous Improvement Strategy Workshop

This session gives a wider group an overview of AgilityHealth® and what it means to adopt a continuous improvement program in order to accelerate your transformation. We will share results and case studies from others who have implemented, and are currently implementing this program.

The Measurement and Continuous Improvement Strategy workshop is intended to help you...

- Define outcomes for your continuous improvement program
- Determine a measurement and continuous improvement rollout strategy for teams, portfolios, and business units
- Learn how to accelerate talent development
- Craft a communication plan to teams, leaders, and other stakeholders
- Enable leadership readiness to remove obstacles

The session will conclude with a discussion about your specific implementation needs, including...

- Organizational structure
- Data sources
- Data output and presentation
- Customization and configuration

*Workshop Duration: 1 day*

*Facilitation Method: On-site*

*Intended Audience: Directors, Program-and Portfolio-level Agile Coaches, VPs and Senior Leaders*
